SKILLS

Java Script   ReactJs   Redux   NextJs

React Router V5, V6   React Native   Python

Problem Solving   C   C++   Html   Css   DSA

PERSONAL PROJECTS

Food-Order-Application (12/2021 - 12/2021)
- This is an application which is a food order app. You can add and remove food dishes in your cart from where we can order it. The food item cart will show your total bill and the quantity of dishes ordered.(This front-end web application is made with the help of ReactJs and react context.)
- Github link - https://github.com/AniruddhUdayan/Food-Order-App

Expense-Tracker (11/2021 - 12/2021)
- This is a web application which will track your daily expenses in a list so you just need to enter the date, month and year to manage, track and keep a check of all your expenses. The application will also show you a bar chart of your expenses in every month so to analyze in which month you spend more money and in which month you spend nothing. (The application was made with ReactJs using hooks like useState)
- Github link - https://github.com/AniruddhUdayan/Expense-Tracker

Weather Application (02/2022 - 02/2022)
- Website link - https://weather-app-f6a0b.web.app/
- A weather application made by fetching data from api asynchronously.(Made with react and used hooks like useEffect etc and promises based function like async await)

Guess-Number-Game (01/2022 - 01/2022)
- This is a mobile application, a simple game where you'll select a number and the computer will guess your number in minimum number of rounds. You can also give hints to the computer weather the guessed number by computer is bigger or smaller than your number. The app was made with React Native with the help of a third party framework - expo.
- Github link - https://github.com/AniruddhUdayan/Guess-Number-Game

Quotes-Web application (01/2022 - 02/2022)
- This is a web application where you can enter new Quotes with the respective author's name and can store it in a page. You can also preview your quotes and view it in full screen. You can also add comments to the quotes. (This application was made with ReactJs and React router.)
- Website Link -https://router-f7381.web.app/quotes

CERTIFICATE

Introduction to C++ (05/2021 - 06/2021)
Certificate of Excellence(Link - certificate.codingninjas.com/verify/9d2d25220068b6d7)
